

Credit Builder Loan Repair & Rebuild Today

Do you need to repair some credit mistakes from the past? First, we'll start with a free credit report analysis for you then likely recommend our Credit Builder Loan.

A **Credit Builder Loan** is designed to help build good credit. Whether just starting out or already have credit and need to repair some mistakes – let AurGroup help you.

This unique loan helps establish good credit and helps build a little savings, too.

How does it work?

AurGroup gives a one-year loan for \$500 and puts the money in a savings account that can't be touched. The member makes timely loan payments, plus a small amount of interest, and each month we'll report the good payment record to the credit bureaus. In one year, they will have established good credit history AND have saved \$500! Next, they could take that \$500 OR do the loan again. Meaning, get another \$500 loan, just as before, but soon have two years of good credit history AND \$1,000 saved! A nice down payment on a car, perhaps?

To apply for a **Credit Builder Loan**, just give us a call at (513) 942-4422 or stop in one of our offices. It's a great tool for young adults, but anyone looking to build or repair credit can use it.

*Offer subject to change without notice. Must be 18 years or older. Based on rate of 5.02% APR, total interest paid would be \$13.70 with one year term. Savings account earns current rate of interest. If loan payments default, member receives only what has been paid, less interest. AurGroup reports to TransUnion.

By members choice, all accounts are insured up to \$250,000 by ASI (American Share Insurance) a private member owned insurer. This institution is not federally insured. Members accounts are not insured or guaranteed by any government agency or government sponsored agency.
